Sony Exmor back illuminated CMOS sensor

USB/LAN/WiFi multiple video outputs

Powerful ISP functions

ToupView/ToupLite software for PC

iOS/Android app for smart phones or tablets

>>>>> Interface

USB

Connect the Micro USB 5V/1A power supply to power the camera, at this time the camera provides LAN or WiFi connection mode.

Connect the Micro USB cable to the USB port of the computer to achieve video image output.

AP/STA Switch Button

Press to switch between AP and STA mode. Connecting 2~3 clients for a single camera is recommended.

LAN

100M Ethernet port to connect to the router or computer to transfer video. Video can be transmitted via LAN or WiFi.

LAN and WiFi cannot be used at the same time. The priority of LAN connection is higher than WiFi.
